Date: 10/04/2015.

Venue: Millennium Hall [B Block 3rd Floor].

Organized by: Class Coordinators of Mechanical Department (SOCET) 4th Semester.

Participated by: 4th Semester students of Mechanical Department (SOCET)

As per the requirement of the GTU innovation council, a seminar on Design Engineering subject was conducted by the Mechanical Department. It was attended by approximately 350 students. Through the seminar we were able to revisit the “Design Thinking Process” and present a concrete structural idea of the revisions incorporated in the subjected in this semester.

The entire program was divided into two batches. One for Divisions A, B, C and D from 9.30 am to 11.20 am. The second one for divisions E, F and G between 11.30 am to 1.30 pm. The topics covered were 1. Concept of Design Thinking, 2. AEIOU framework, 3. Overall Canvases required 4. Learning Need Matrix.
